

Find Your Winners

BIG SQUARE  
Partner Performance

## Partner Performance

Partner Performance provides your partners and executive team the ability for real time, automated, comparative analysis against peers, goals and/or dates without sifting through piles of paper. Automate the management of individual performance for executives by providing an easy-to-use, interactive environment that can be extended to reference performance metrics of any individual at your firm. The application can be extended beyond partners without limitations.

### Comprehensive Library Of Key Performance Indicators (KPIs)

Can Be Tailored to Meet The Unique Requirements of Your Firm

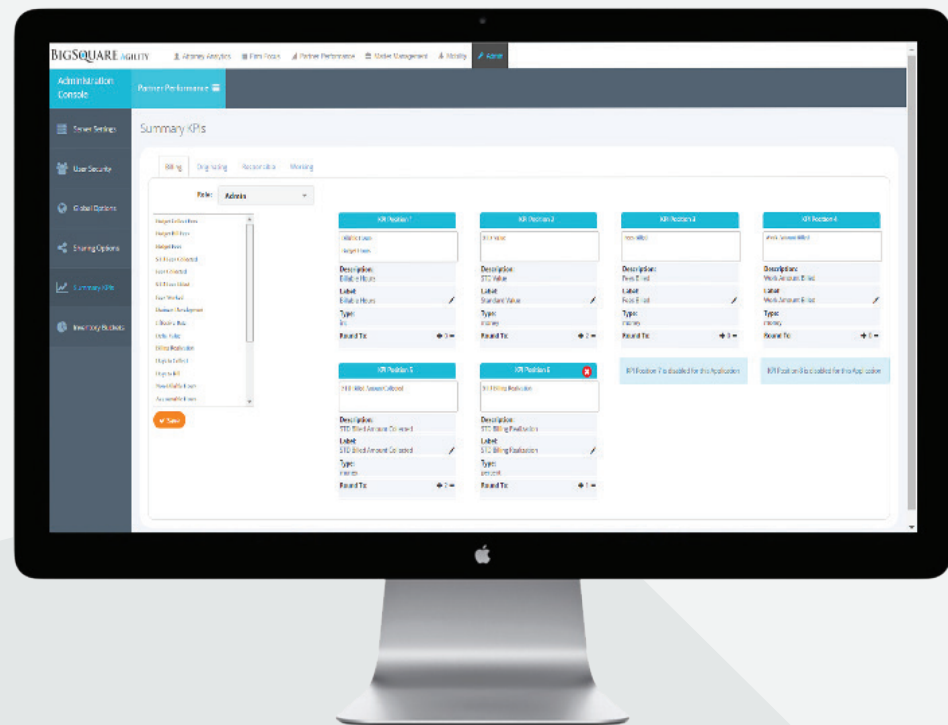

Leverage KPIs You are Evaluating to Instantly Provide Targeted Analyses Amongst User-Defined Peer Groups and Benchmarks

Utilize Different Metrics Between Differing Timekeeper Profiles to Ensure Precise Analysis of Book of Business

Evaluate KPIs Using Actual Versus Budget and/or Target for Any Metric

Targeted And Secure Content Based On Security Role

## Perform Comparative Analysis Against User Defined Peer Groups

Timekeepers can be immediately evaluated against multiple peer groups and benchmarks including, but not limited to:

- Title/Rank/Classification
- Department
- Practice Group
- Combination of Above and/or User-Defined Criteria

## Admin Console

### Take Control

A robust administrative console allows your firm management to administer a myriad of application configurations and security options. No firm is the same, which is why our one of a kind administrative console allows you to easily configure everything from KPIs to Inventory Aging Buckets by role. Power to the people!

## Role Based Contexts

### An Answer for Every Role

Our role-based contexts ensures that the right users gain access to the right information at the right time. Is your methodology different than your peers? No problem. We customize everything based on your firm's culture.

## Highly Configurable

### One Size Doesn't Fit All

We built Attorney Analytics based on the industry standards, but we know that every firm is different. That's why everything can be configured based on your firm's story. You name it, we can do it.
